A complete row of five double-fronted bluestone cottages, each on individual titles, stretching across an entire city block - this is not just rare, it's unrepeatable. Whether you're looking to secure a piece of South Australia's rich heritage or seeking an investment with undeniable future benefit, this is your moment.

Behind the pretty cottage gardens and emu fencing lies a charming property straight from the late 1800s - with fully restored heritage facades, original bluestone exteriors, and beautifully contrasting brick parapets and quoins. Each cottage boasts a new convex verandah and instant curb appeal.
